(pretend tbd)

Start Page

- Map (interactive)

- Color changed on this area

Map Info (After Click) Page

- Category filtering

- info (chart or list)

Question

1. Street vs Area (√)

2. category (depend on databases

3. rate & number ()

4. criminal or victim

Limit

1. only past 3 years

2. No gender, age info (could be mentioned in Pre)

3. Plan B (e.g. Stop and Search)

Plan

Unassessed Presentations Session - (Workshop Session 6 - 10am)

Interactive website with source submitted on GitHub - Tuesday 11th Nov 2025 - 9:30am

Group Report submission via Moodle with Individual Component - Tuesday 11th Nov 2025 - 9:30am

Group Pitches – unassessed but required

5 min presentation with 3 minutes for questions

A rough overview of the group work:

1. wireframes and storyboarding of the user experience

2. the identification of a relevant dataset

3. how they attempt to visualise the data

4. the group aims to achieve at the end of the project

Amendments can be made later on.

Ensure sure students have an achievable goal within the time frame and to source valuable feedback from tutors and the rest of the class.

At least 2 people but expect all members of the team to contribute to the presentation
